# **Sign the Petition to Stop the Race to the Bottom & Protect Public Education**

California already ranks **47th** in the nation in school funding, despite being the 8th largest economy in the world! Any further cuts will lead to thousands of layoffs and dramatic increases in class size, and will decimate our ability to deliver a quality education to our students. Drastic cuts at a time when our students and our schools are making such remarkable progress make no sense. It is an insult to our children and our future. We demand that you do the right thing and fully fund public education!

Go to [www.uesf.org](http://www.uesf.org) to download the petition. Bring completed petitions to the rally on February 3rd; 4:00 p.m. @ City Hall.
